

Florida Land Title Insurance and Title Services

Title insurance can save you time, money, and in some cases it can even save your property. Think of it as a kind of security fence. It's an investment that you cannot live without, for a risk that you cannot afford to take.

When you buy a property, you receive a title. This generally means that you receive full legal ownership. However, in some cases, there may be an undetected or hidden defect in a prior deed, mortgage or will that may give someone else a very valid and troublesome legal claim against your recently purchased property. If and when this situation occurs, land title insurance provides complete protection against any loss on covered defects.

This is why working with an experienced, professional and reputable Florida title insurance company like Equity Land Title, is essential. We provide complete, unmatched, expert services for both your commercial and residential land title needs. When you choose Equity Land Title, you are not only choosing the best – you are choosing peace of mind.

What can Equity Land Title do for you?

- **2013 RESPA HUD-1 Guidelines and Quote** – We can provide you with the fast, accurate quotes you need.
